

Empathy Map

Date	26 june 2026
Team ID	
Project Name	HDI Prediction System using Machine Learning and Flask
Maximum Marks	4 Marks

Empathy Map

The empathy map helps us understand the needs, challenges, and expectations of government analysts, policymakers, and researchers while predicting the Human Development Index (HDI). By understanding what users say, think, do, and feel, the HDI Prediction System is designed to provide accurate, data-driven predictions that support informed decision-making, policy planning, and sustainable human development.
